

Questions you may ask your doctor

Questions about your medical history – including any conditions you've been diagnosed with, any hospitalizations, troublesome symptoms; relevant medical history of parents, siblings.

- What do you think is causing my symptoms?
- How does my medication work?
- How do I take my medication?
- Are there side effects that I should be aware of?
- What should I do if I experience a side effect?
- Where can I get more information?
- How else can I manage my symptoms?
